

## Websites of Districts of Madhya Pradesh On S3WaaS Platform

NIC Madhya Pradesh has completed development & migration all the existing 51 District websites of Madhya Pradesh on S3WaaS Platform on 30<sup>th</sup> July 2019. This is accomplished in a record time period. The first district website was migrated on S3WaaS Platform on 29<sup>th</sup> May 2019. This could be possible by the best efforts put in by all the concerned at NIC and the District Administration.

S3WaaS (Secure, Scalable & Sugamya Website as a Service) (<https://s3waas.gov.in/>) platform has been created by NIC under Unified Open Source Technology (i.e., WordPress System Software, which can be considered as powerful Open Source website creation tool with CMS (Content Management System) in PHP) and it has been deployed on NIC Cloud, especially for District Entities.

NIC, Madhya Pradesh initiated discussions & interaction with the State Government from May 2018 onward for development of District Websites on S3WaaS Platform. As GIGW compliant websites of the Districts were operational in the State, the State Government decided (in Apex Committee Meeting, Chaired by the Chief Secretary, Government of Madhya Pradesh) during March 2019 and entrusted the responsibility to develop & migrate all the existing District websites of Madhya Pradesh on S3WaaS platform. As District Administration and DIOs/OICs NIC District Centres were extensively busy in Lok Sabha Elections work, the major migration processes could be started only after completion of the Election work at Districts.

NIC, Madhya Pradesh created a dedicated team (S3WaaS-MP Team) consisting of Shri Sanjay Joshi, TD & DIO, Sehore & Shri Praphulla Shrivastava, ADIO Katni from Districts and Shri Pradeep Ahirwar, SSA & Ms. Saraswati Parmar, SA from State Centre, Bhopal under the over all leadership of Shri Sanjay Hardikar, Sr. TD & ASIO (District), to coordinate with the NIC(HQ) S3WaaS Team.

Subsequently, Shri Subhash Chand Thakare, DIO, NIC Anuppur, Shri Anil Parmar, ADIO, Sehore, Shri Deepak Bavaskar, DIO Burhanpur & Shri Rajendra Patidar, DIO, Khargone were included, as a extended team, to help DIOs/OICs and to extend required support in migration activity. This team, including NIC(HQ) team, worked extensively, restlessly & on/off the working days/hours, and migrated all the District Websites of the State on S3WaaS platform smoothly in shortest possible time period, which can be considered to be the fastest migrating State with 100% migration.

Madhya Pradesh has wealth of Cultural Diversity & Rich Heritage, Traditional Customs & Evolving Lifestyle, Vast Treasure of Tourist Places, Earthy Art & Handicraft, Nutritious Culinary Delights, etc., thus, the structured & up-to-date data pertaining to the State Wealth is the feature of these websites and would be available under Unified Portal and also would facilitate access to PAN-India Data – ONE INDIA.

Websites of Districts of Madhya Pradesh can be viewed from District Portal of Madhya Pradesh (i.e., URL <https://mpdistricts.nic.in>).
